Thumbscrew, Extol.

Treaty as Allies is bringing a new breed of hardcore, indie, metal, rock that will definitely leave you breathless. From a stage performance where audience participation is the focus of the show to the melodies and intricate guitar parts which drive the energy of the band, being thoroughly rocked is to be expected. Fueled with passionate lyrics that cover hot topics such as suicide, abortion, relationships, and abuse, these guys have a message to share with their fellow peers, while sharing the stage with some amazing artists. They are continually developing a respect not obtained by most bands their age...

"Treaty as Allies mix, hardcore with harmony and can deliver more than any studio can grasp. I have worked with over 4000 bands in the past three years and TAA has given me more promotion, more performance, and more commitment than any other band. They really work at taking their band to the next level. And it has paid off. They continually blow their crowd away with their stage performance and presence. The business ethic this band has is like some of the bigger bands I've worked with, such as UnderCurl, Story of The Year, Evertime I Die, From First to Last, The Chariot, Maylene and The Sons of Disaster, Bowling for Soup, Spoken, Dwight Yokam, Blindside, Autopilot Off, Living Sacrifice, Pillar, Squad 5-0."

-Jeremy Brown,  
Owner and Promoter  
The Music Hall Concerts and Recordings

"This record's got ballz!  
Like being crushed between two speeding submarines at the bottom of the ocean."

-Derek Taylor, Milo Studio
